Non-fiction or fiction, Linda Alexander writes for one reason only — to try and understand . . . the world around her and people in it. Everyone has a story. Anything and everything can happen in Linda's world.

It does, and she writes about it. It's her challenge, to herself & to her readers, to just ignore stereotypes, sidestep generalizations, and, finally, to hopefully accept that which is different from what is known and easily understood. All her stories are about people, first and foremost. Some have really lived. Some live through her imagination. Every one of them is flesh-and-blood. How often have you looked at someone and wondered about the life that person lived? Linda stopped wondering and began asking a lot of questions.

Through conversations, research, and, well, yes, imagination, Linda takes you on a memorable ride through life . . . each and every time you read one of her books. Surf through the pages of a Linda Alexander book. Challenge yourself to understand.

Weekends In New England

Ex-nun Hannah Jergen married the first man to look at her. Denny Lorenzo, an internationally-famous Jewish singer, is in a crumbling marriage to an overbearing publicity hound. Guilt-ridden flashbacks over a car accident that left his wife with amnesia are the only reasons he hasn't left her.

Denny's performance schedule takes him to Boston, Hannah's hometown, and sparks fly. How can such opposites fall in love without changing the world, theirs and that of those around them? They can't. Unable to shed their miserable marriages, Hannah and Denny are equally unable to deny their growing attraction. Through undercover meetings facilitated by Hannah's faithful friend, Donna, their emotional attachment becomes dangerous after accidents and mysterious illnesses befall them. When a seriously-injured Hannah is kidnapped and held for a sick ransom, Denny's life for hers, worlds collide in a shocking confrontation.

It all started during those weekends in New England. . . .

Dorothy From Kansas Meets the Wizard of X

What if the tornado dropped Dorothy not into Oz, but onto the shooting set of an X-rated film?

This book tells of an odd camaraderie between a porn icon and freelance writer. The storyteller's curiosity took her on a journey into a sexual world about which she knew nothing. She, an awakening "Dorothy," and Eric Edwards, a celebrated adult film star since 1969 in his own "Oz," were an unlikely pair but through interviews and day-to-day living they became friends, protective of each other.

This non-pornographic look behind the X-rated camera includes voices of industry insiders to offer a non-judgmental look into the most mysterious, misunderstood faction of film entertainment.

Until Next Time

Perry Conners, Arizona tycoon and soon-to-be politician, can't sleep or make love anymore, and he's losing all sense of reality. Is it the Devil's fault?

Most people walk life's tight-rope between pure good and unadulterated evil, never finding their way into either extreme. Perry Conners, a successful businessman being groomed for politics, is one of these "middle-liners" until Evil Personified--in the form of a woman using sex as her tool--methodically steals his every sleeping, and waking, moment, taking him beyond reason, dignity, even self. A fight for his soul is waged and he is literally the battlefield. Which will win this struggle? Good or Evil? It's just a matter of time.

The Unpromised Land

This book tells the true story of a Messianic Jewish couple, Gary and Shirley Beresford, and their struggle to attain Israeli citizenship, to live in the Promised Land, legally in the eyes of Israel, as well as in the eyes of God. Israel's Law of Return, however, forbids legal residence for them as Messianic Jews — Jews who believe in Christ as the Messiah.
